Election/Restrictions

Applicant's election of Group V (figures 9-11 and 13) in Paper No. 11 in the reply filed on January 13, 2003 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Newly submitted claims 102-104 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Regarding the elected embodiment of figures 9-11 and 13, the first and second upper drawers are coupled via hinge and not by a sliding track interface where such features can be found in the Non-elected species group of VI, figure 12. Additionally, newly submitted AMENDED claims 44, 65,66, 79, 87, 95-97 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Regarding the elected embodiment of figures 9-11 and 13, the inner surface of the door does not comprise a lip with a rotatable earring stand where such features can be found in the Non-elected species group of IX, figure 18. Accordingly, claims 44, 65,66, 79, 87, 95-97, and 102-104 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 98-101 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the specification for a lower drawer to slide out from the organizer through an opening in the back wall (19) as recited in newly submitted independent claim 98. Such is new matter. Claims 99-101 depends from claim 98.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
